Organization of Muslims in Hungary

DECLARATION REGARDING INCLUSION ON THE LIST OF EGYPTIAN TERRORIST ORGANIZATIONS

The Organization of Muslims in Hungary has learned with shock of the decision rendered by the Cairo Criminal Court on November 10, 2026 (Case No. 11108 of 2026), which designated the Organization of Muslims in Hungary - along with numerous other European Islamic organizations - as a terrorist organization.

This decision is groundless, and we reject it entirely. Since its founding, the Organization of Muslims in Hungary has operated as an independent entity in full compliance with Hungarian law, protecting and serving the interests of Hungary.

Throughout its 26-year existence, the Organization of Muslims in Hungary has achieved significant results in religious education, community development, support for families and youth, and social and charitable work. It has also actively promoted peaceful coexistence, as well as religious and social dialogue, both domestically and internationally. Furthermore, it has consistently taken action against extremism and the incitement of hatred, utilizing all available legal means. At the same time, our international and European connections do not entail any ideological or financial commitment - at any level - to any organization.

The Organization of Muslims in Hungary expresses its concern regarding the inclusion of European organizations in local judicial proceedings that lack any evidentiary basis. Such actions serve to discredit independent religious and civil society organizations and attempt to undermine the rule of law in Europe.

Budapest, 12th November 2026
